

## Dimenzije Oakely naočara za sunce

### Size and fit

#### Size: One size fits all

Oakley naočare za sunce bez napora se prilagođavaju vašem jedinstvenom obliku lica, bez izuzetaka.

#### FIT INFORMATION

Šta je fit?

Fit - pristajanje je estetska informacija koja ukazuje na količinu pokrivenosti lica za određenu veličinu.

Okviri prikazani na slici su iste veličine, ali se različito uklapaju.

Tri moguća pristajanja su:

**Narrow:** Mali prednji deo stakla dizajniran da odgovara onima sa blago uskom glavom.

**Regular:** Veliki prednji deo stakla dizajniran da odgovara onima sa glavom prosečne veličine.

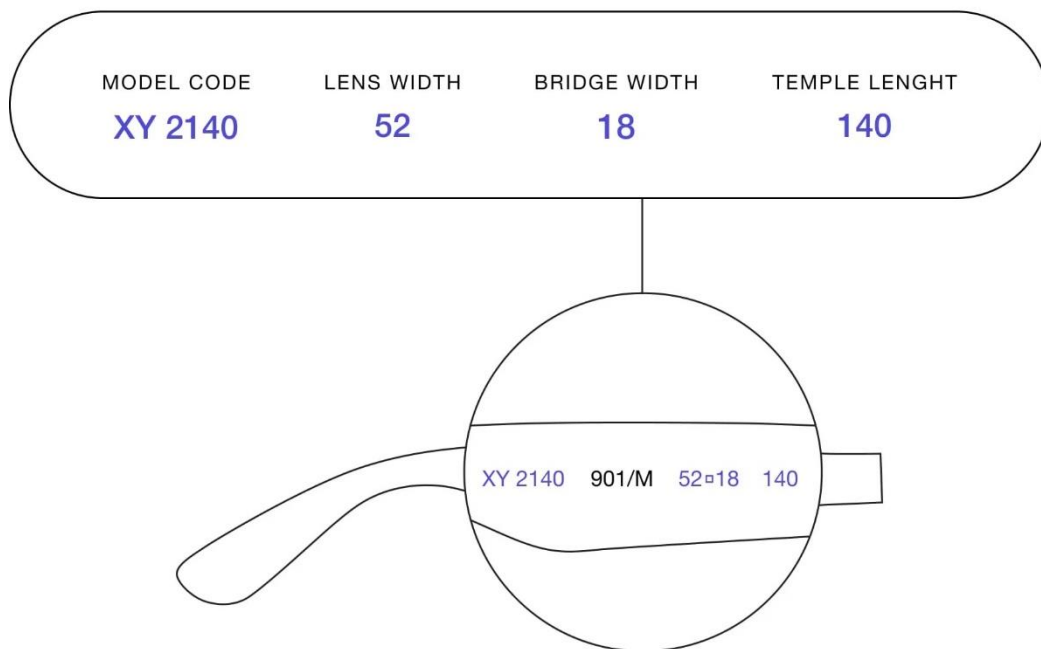

**Wide:** Veliki prednji deo stakla dizajniran da odgovara onima sa širokom glavom.

## FRAME SIZE

**Size: One size fits all**

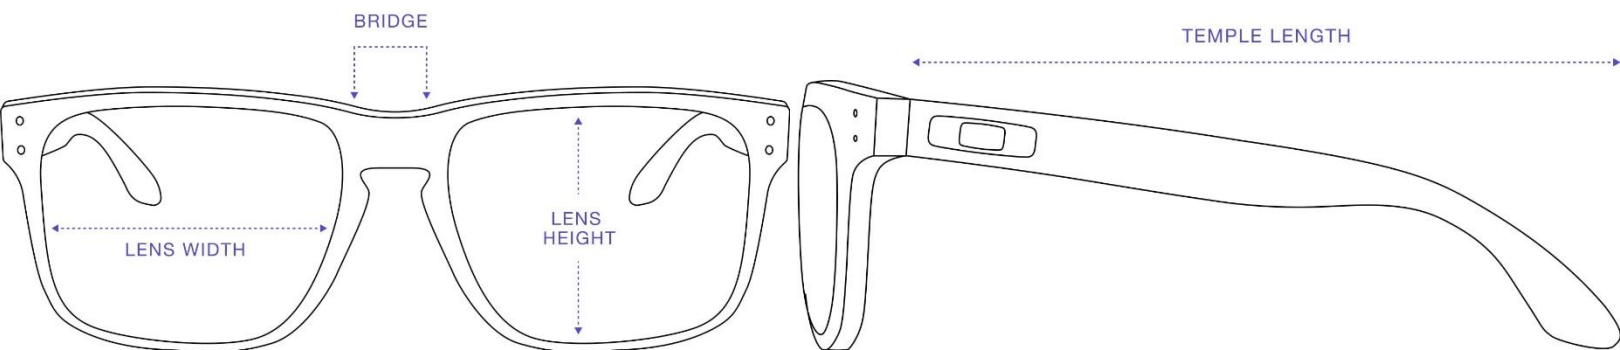

Oakley naočare za sunce bez napora se prilagođavaju vašem jedinstvenom obliku lica, bez izuzetaka.

Ako već imate Oakley naočare, proverite da li su ugravirani brojevi na unutrašnjoj strani drški.

Prvi je **Model code** - kod modela naočara, zatim **Lens width** - širina stakla i **Bridge width** - širina mosta. Obično postoji treći broj koji predstavlja **Temple Length** – dužinu drški. Ponekad postoji i četvrti broj koji je **Lens Height** - visina stakla.

Svaki od ovih brojeva se meri u mm. Okviri se mere u milimetrima.

Ove informacije su uključene u svaki Oakley okvir kako bi vam pomogle da procenite kako će pristajati vašem licu.

## BRIDGE AND NOSEPADS

Šta su most i jastučići za nos?

Ove funkcionalne informacije opisuju različite tipove mostova i jastučića za nos.

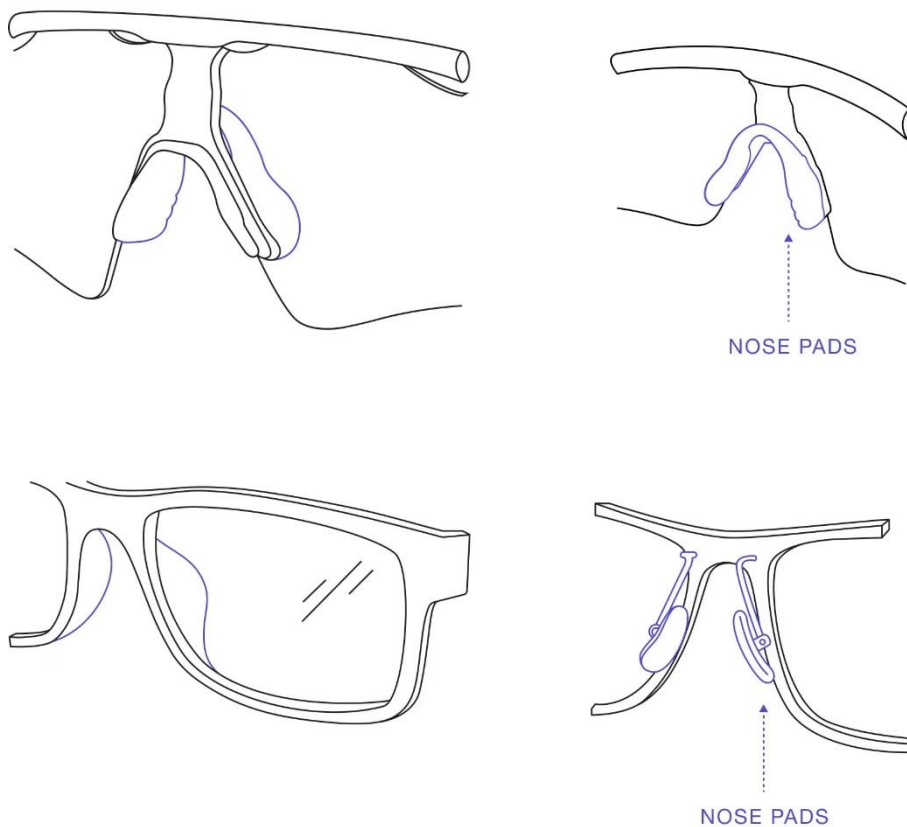

Opcije su:

**High bridge fit** - visoki most: Nudi sigurnije i udobnije pristajanje ako imate visok most za nos i niže jagodice. Dobar izbor ako vam je nos iznad zenica.

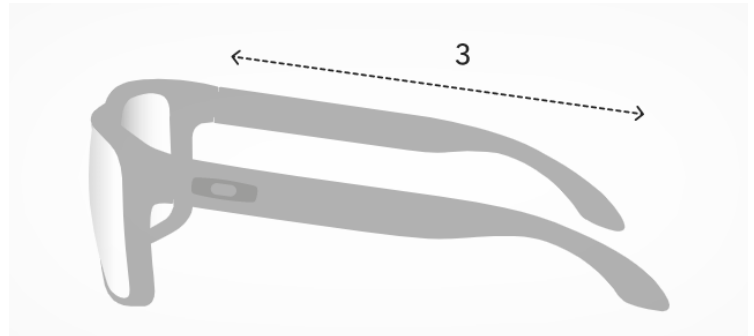

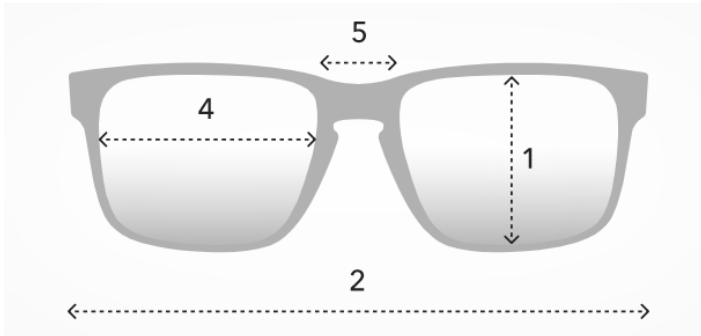

**Low bridge fit** - niski most: Nudi sigurnije i udobnije pristajanje ako imate nizak most za nos i veće jagodice. Dobar izbor ako vam nos leži niže od zenica.

**Universal fit** - univerzalno pristajanje: nudi udobno pristajanje i odgovara većini ljudi.

**Adjustable nose pads** - podesivi jastučići za nos: Jastučići za nos koji se mogu proširiti ili suziti da odgovaraju vašem jedinstvenom obliku nosa.
